

To whom it may concern,

I am writing this letter of recommendation in regards to Robert S. Lewis. To provide some background in my experience with Robert, it would be helpful to describe my situation. In November of 2006 I had a house fire. Essentially, everything my wife and I owned was destroyed. Upon the initial process of scoping out the rebuild, my contractor recommended Robert (Building Ideas) to do the architectural plans for the demolition and subsequent rebuild of my home. My contractor made one phone call to Robert, and he arrived less then 30 minutes later at my home. Robert inspected the entire home that same day. Less than 24 hours later, I had the plans for rebuilding my new home in my hand and additional pictures and descriptions which were vital when it came to negotiating with my insurance company. Included in this was detailed information for my contractor regarding city code laws and necessary designs without which we could not have obtained permits or began reconstruction as quickly as we did. Robert went above and beyond my expectations when he phoned my insurance adjustors and fully explained to them the extent of the damages.

Since that time, my wife and I decided to upgrade certain areas of our home. We consulted with Robert, and once again less than one day later we had new plans. I am happy to say that my home is nearing the end of the rebuild and I couldn't be happier with how it turned out. Because of prompt service, attention to detail, and expertise in his field, I would highly recommend Robert for any architectural needs.

Sincerely

J.D. Gaynor
