Dear Robert,

We would like to thank you for the outstanding job you performed on the architectural services for the extensive remodeling on our newly purchased home.

As you know we never anticipated having to renovate as was necessary, but you made this very challenging situation less difficult.

You have been extremely professional and knowledgeable. Your familiarity with the city and codes had each set of revisions come through with "no comments", thus sparing us added expense and time delays.

We look forward to being a client for any further renovations and highly recommend your services.

Thank you again,

Sincerely,

Nancy and Robert Levy
